CAUSE OF DEATH must be plainly written. See other side for instructions. Use only one line for each cause. Do not use abbreviations or ditto marks. Do not report conditions which did not contribute to the death. Do not report modes of dying, such as heart failure, asphyxia, anemia, or uremia. Do not report merely symptoms, such as pain, weakness, or convulsions. Do not report indefinite terms, such as cancer, tumor, stroke, or paralysis. Be sure to report the primary cause, that is, the disease or injury which initiated the train of morbid events which resulted directly in death. Operations should be reported only when performed for some other cause than that which caused death. Write plainly with pen and ink and use only standard medical terms and abbreviations. Punctuation is unnecessary. Make a separate report for each death. Do not fail to answer every question. If there is no medical attendant, the coroner must certify to the cause of death. When death is due to external causes (violence), fill in also the following: Accident, suicide, or homicide? How injury occurred? Was injury work connected? Where did injury occur? (Specify whether in home, factory, street, office building, etc.) Date of injury? TIME is very important. See instructions on back of certificates.
